CREATIVE SUMMARY

I've written, produced, directed, did the cinematography, sound, editing and acted in, over 30 self-produced films (including 4 features). I don't just write or create with the blind intention to entertain; I'm an artist because I have a definitive and ever-growing philosophy that attempts to enlighten with shackle-shattering ideas and perspectives upon the human condition, Nature and society as a whole, therefore joining all as one while consciously remaining one through soulful and original creations rooted in blood, sweat, tears, laughter and of course ink.
